Importance: High

Kristine,

You noted that you were not going to add any stormwater language which is fine. If you subsequently change your mind please see the attached from Alex. She is in the office tomorrow if you have questions.

Matt, here is the proposed stormwater language and some paragraphs on groundwater and riverbanks for your review. Please review and modify as necessary and send back to me ASAP. I will incorporate your revisions into the marked up Section 1 and distribute this afternoon.

Eric

Eric,

When you send over the Section 1 revision today can you make sure to include the language on the stormwater pathway. We want to make sure that the language includes the need for continued implementation of DEQ's stormwater program. Just want to make sure that it cannot be held up by an RP as an argument that they do not need to continue with stormwater source control efforts. Also, please copy Alex.

Thanks,

Matt McClincy
